3/17/2019

Dear Honorable Frederic Block,

While sitting in my unit, K-84 at MDC Brooklyn, I viewed a segment on Channel 7 news about ten (10) year old, Khadijah Sebir, who has a rare kidney disease. As a result, she needs a kidney transplant in order. At that moment I said to myself, what if that was my child? What would I do? Of course I would donate my kidney if it matches. Suppose it didn't? I would hope someone would volunteer to donate a kidney to save her life. After reflecting on would of, could of, or should of. I said why not donate my kidney if I'm a match to Ms Sabir. I am not looking for time off from this, or anything from this. I am doing this for her and her family. And my self. I made mistakes in life no one is perfect. But I want to do this for the right reasons. Your honor, I need authorization from the court to go thru the process to see if I'm a match. It's allowed and my kidney is a match. I want to donate my kidney.

RECEIVED
IN CLERK'S OFFICE
U.S. DISTRICT COURT FOR THE N.D. OF ALA.
APR 1 1998

As a result, I'm seeking authorization to get

Test

Thank you for your anticipated cooperation.
